

<u>Date</u>	<u>Things Completed</u>
Monday	<ul style="list-style-type: none"><li>• I think it was this Monday, not 100% sure, but I think I was in guidance, reset the Mac in there from the Web because the other installers weren't working</li><li>• Alongside doing that I worked through SQLBolt more, making good progress in that</li></ul>
Tuesday	<ul style="list-style-type: none"><li>• Worked on revising the Tech-Script for Old Brunswick, updating it with new cues, figuring out how to better work the soundboard app that I have and making sure that all the cues properly flow into one another.</li></ul>
Wednesday	<ul style="list-style-type: none"><li>• Spent a day hardcore grinding away at SQLBolt, started on querying with more complex logic, which was really just adding a few expressions into the mix, &lt;, &gt;, *, +, -, those sorts of things.</li><li>• I'm not sure if it was today, but I feel like I may have made an appearance in Guidance this day as I dropped off a drive with footage on it to Maddy Thursday, so I think I might have also been there a bit.</li></ul>
Thursday	<ul style="list-style-type: none"><li>• There was the Basketball game in the gym that I went to watch which was really fun</li><li>• Worked away on some more SQLBolt at home</li></ul>
Friday	Was Good (Ba-Da-Dumn)

## Summary / Highlights

- Finally got the Mac in guidance working, although might have to install Windows on it because Apple is evil and doesn't like slightly dated hardware running any apps on it.
- Really close to finishing SQLBolt, not much more to go before I move onto whatever it is that comes next, likely some other programming course, although I really do want to dive into making some sort of project. Not 100% sure, time will tell.
